

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
REGION 2  
290 BROADWAY  
NEW YORK, NY 10007-1866

JUL 25 2007

Ms. Irene Kropp, Assistant Commissioner  
Site Remediation and Waste Management  
New Jersey Department of  
Environmental Protection  
401 East State Street  
P.O. Box 413  
Trenton, New Jersey 08625

Dear Assistant Commissioner Kropp:

Enclosed are two copies of Amendment No. 3 to the Superfund State Contract (SSC) for the Cornell-Dubilier Electronics (CDE) Site located in Middlesex County, New Jersey. This amendment has been revised in accordance with the comments received from your staff.

This Amendment No. 3 modifies the SSC to add Phase 2 of Task II of the remedial action. Phase 2 of Task II involves the excavation and off site disposal of an estimated 7,500 cubic yards of soil and debris from the capacitor disposal areas. Since this material is not amenable to on-site treatment by low temperature thermal desorption (LTTD), EPA intends to address the capacitor disposal area component of the soil remedial action while the remedial design for the LTTD component of the remedial action continues to be developed.

Please sign and date both copies of the contract, each of which should be considered an original. Retain one copy for your files and return the other to Carole Petersen, Chief, New Jersey Remediation Branch, 290 Broadway, 19<sup>th</sup> floor, New York, New York 10007-1866.

Sincerely,

A handwritten signature in black ink, appearing to read "George Pavlou".

George Pavlou, Director  
Emergency and Remedial Response Division
